Organizational Structure And Job Codes Training Course

Ref.: 15244_270477 **Date:** 04 - 20 May 2025 **Location:** Amman (Jordan) **Fees:** 2900 **Euro**

Introduction:

This organizational structure and job codes course will provide you with the information and guidance to design and define job roles and critical accountabilities of each job to support your organization's structure and business goals.

Understanding a company's organizational structure and appropriate job codes is crucial for maintaining clarity regarding employee roles and responsibilities. This training aims to elucidate these components and demonstrate their significance in achieving organizational goals.

This course marries the intricacies of organizational structure and job description, offering participants a holistic view of the construction and communication of managerial roles. By integrating concepts like job codes and the broader organizational framework, this training prepares professionals to create, evaluate, and manage the structure that drives success.

What is Organizational Structure?

Before delving deeper into the organizational structure and job codes course, comprehending an organizational structure's definition is essential. It is the system by which job tasks are formally divided, grouped, and coordinated within an organization. This initial understanding serves as the foundation for the entire organizational structure training.

Targeted Groups:

- Human Resources professionals.
- Managers, Supervisors, and Team Leaders.
- Human Resources Staff.
- Employees in all departments.

Course Objectives

At the end of this organizational structure and job codes course, the participants will be able to:

- Explain the primary uses of job descriptions.
- Link the evaluation of roles to compensation strategies.
- Understand how job evaluation is relevant to compensation.
- Gain an overview of the job evaluation process.
- Appreciate why job descriptions are critical to job evaluation.
- Engage with some prevailing questions on job analysis.
- Accurately delineate responsibilities within job descriptions.
- Utilize job description terminology effectively.
