Strategic Financial for Nonfinancial Managers: Empowering Planning & Decision Making

Ref.: 8057_274025 **Date:** 06 - 17 Jul 2025 **Location:** Kuala Lumpur (Malaysia) **Fees:** 6500 Euro

Introduction:

Managerial accounting is an essential activity that provides pivotal financial and nonfinancial information to business managers and other internal stakeholders. This comprehensive finance for nonfinancial managers course leverages financial training for nonfinancial professionals, enabling them to make empowered plans and strategic decisions.

The strategic finance for nonfinance managers course includes fundamental managerial accounting concepts, cost accounting, and various managerial accounting methods. As a participant, you will acquire the necessary concepts, procedures, and analytical skills to navigate and succeed in today's complex business landscapes.

Financial Training for Nonfinancial Managers: Understanding Costs and Decision-Making:

In this crucial finance course for nonfinance managers training, you will delve deep into cost concepts and how they are integral to strategic business decisions. From the criticality of breakeven analysis to cost-based pricing, this strategic finance for nonfinance managers course will unravel the complexities of costing and provide you with the tools to apply cost data smartly.

Targeted Groups:

- Managers.
- Supervisors.
- Staff from any function, including those outside the accounting department, who seek to enhance their financial literacy and apply financial principles and tools effectively in their roles.

Conference Objectives:

By the end of this strategic finance course, participants will:

- Understand the essential functions of financial management.
- Be adept at reading and defining the four critical financial statements: balance sheet, income, cash flow, and changes in owner equity.
- Be able to interpret the financial health of a company or profit center.
- Master of capital budgeting and cost-volume-profit analysis for better financial foresight.
- Utilize financial information effectively to manage business operations or departmental performances.

Targeted Competencies:

By the end of this strategic finance course, the target competencies will:

- Accounting for business transactions.
- Prepare comprehensive income statements.
- Interpret detailed balance sheets.
- Analyze informative cash flow statements.
- Prepare precise adjustment entries.
- Employ debits and credits efficiently.
- Applying International Financial Reporting Standards IFRS.
