

Building Operational Excellence in the Process Industry Conference

20 - 20 Apr 2025
Sharm El-Sheikh (Egypt)

Building Operational Excellence in the Process Industry Conference

Ref.: 8183_276464 **Date:** 20 - 20 Apr 2025 **Location:** Sharm El-Sheikh (Egypt) **Fees:** 3500 Euro

Introduction:

The process industry is capital-intensive and is characterized by strong and relentless international competition. Certain operations and processes are also high risk. This operational excellence in process industry conference means that process companies must be on top of their game to survive and grow in these difficult conditions.

Building Operational Excellence into the Process Industry has been designed to explain the main factors of operational excellence and how to build them into a coherent improvement program for the process industry. The latest tools and techniques are introduced and explained with a minimum of jargon so that delegates can see how to use them.

Improving operational excellence is an ongoing journey that ensures an organization remains effective, efficient, and ahead of the competition. This operational excellence in process industry conference is specifically designed to integrate operational excellence training within the core of your business strategy, helping you build operational excellence and sustain it through continuous process improvement. Attendees will leave with a robust understanding of improving operational excellence in their operational building and across the broader organizational landscape.

Operational Excellence Essentials:

As we delve into the subject of operational excellence, one might question what operational excellence is. But, it's the practice of continuously improving organizational processes to enhance performance and competitive standing.

This operational excellence in process industry conference is the bridge to mastering operational excellence. It provides the foundational knowledge needed for certification.

By participating in this operational excellence conference, you gain insights into operational excellence definition and the practical experience from our operational excellence workshop, gearing you towards achieving a master of business operational excellence or even considering an operational excellence master's degree.

Targeted Groups:
