Accounting & Finance Masterclasses: Certificate Course

Ref.: 2028_279115 **Date:** 29 Jul - 09 Aug 2024 **Location:** Brussels (Belgium) **Fees:** 6750 Euro

Accounting & Finance Masterclasses: Certificate Course Overview Introduction:

This accounting and finance masterclass offers an in-depth overview of the accounting and finance world. Part 1 emphasized the internal workings of the finance/control function as it communicates with external and internal constituencies to provide information for decision-making under uncertainty. Part 2 highlights the capital markets' impact on corporate finance, risk, and governance.

Preparation is optional except to bring an open mind and a budget or other financial documents of interest.

The accounting and finance masterclass provides delegates with crucial finance terminology and practice by combining techniques with analysis, problems, and examples with real case studies and supporting theories.

This accounting and finance masterclass presents the essential financial tools generally used and explains the broader context of how and where they are applied to obtain meaningful answers.

In this business accounting and finance course, you will learn a conceptual backdrop for strategic business management's financial/economic dimensions, understand the nature of financial statements, and analyze data, planning, and control.

Targeted Groups:

- Financial analysts.
- Financial controllers.
