Geneva (Switzerland)

# Financial Management for Projects & Contracts Training Course

**Ref.:** 4092\_283538 **Date:** 10 - 14 Feb 2025 **Location:** Geneva (Switzerland) **Fees:** 5500 Euro

## Introduction:

With increasing competition and focus on corporate earnings, project and contract managers are held accountable, not just for achieving technical and scheduling goals but also for meeting profitability targets and other cost-related measures.

This advanced financial management for projects and contracts training course explores the financial metrics that are commonly used and also examines the less frequently thought-of financial impact of typical operating decisions and actions. Building on your competencies, you will examine the inner mechanics of how finance and accounting can impact your project.

## Understanding Advanced Contracts and Financial Management:

In this advanced financial management for projects and contracts course, we delve into advanced contract and financial management practices. Participants in the advanced financial management for projects and contracts course will learn to apply forward-thinking financial strategies and contract management techniques to ensure their projects not only meet but exceed financial expectations. We examine case studies and real-world scenarios where advanced financial planning and contract structuring have played pivotal roles in project success.

## What is a Financial Management Course:

This segment provides an overview of what participants can expect to gain from a financial management course. It clarifies the outcomes, such as a clearer understanding of financial principles specific to contract and project management and an enhanced ability to integrate these principles into daily project management practice.

By incorporating these essential financial management concepts into your professional skill set, you'll be poised to make more informed decisions that will positively impact your project's bottom line.
