# ORM Operational Risk Management & Mitigation Training Course

**Ref.:** 9003\_284475 **Date:** 06 - 10 Jan 2025 **Location:** Munich (Germany) **Fees:** 4900 Euro

## Introduction:

This operational risk management and mitigation training course will equip participants with the expertise to proactively manage and mitigate risks across their operations.

This course underscores the importance of ORM operational risk management certification. It provides delegates with robust risk management operational training emphasizing the critical balance of risk and reward in a technologically driven and globally competitive marketplace.

This operational risk management and mitigation training delivers insights into Risk Governance and a systematic methodology for identifying, quantifying, and mitigating risks that threaten the organization's normal functioning.

Participants will gain a profound understanding of the human, process, systems, and organizational causes of risk and strategies for their minimization. This ORM operational risk management training includes grasping the psychology of risk prevention and measures against external threats.

This operational risk management and mitigation course will allow delegates to scrutinize their operations rigorously, plan and manage risk within their environments, and use practical operational risk mitigation strategies.

## Certification in Operational Risk Management and Mitigation:

An operational risk management and mitigation certificate can be transformative for professionals looking to validate their skills in creating robust, risk-aware strategies.

This operational risk management training course aims to prepare participants for certification, which will significantly boost their risk management qualifications and testament to their competency in guarding their organizations against a spectrum of operational risks.

## Targeted Groups:

- Senior Operations Managers.
- Risk Management Professionals.
- Operations Managers.
- Senior Team Leaders.
- Maintenance Managers, Engineers, and Technicians.
