

## Research Project Management

14 - 20 Apr 2025  
London (UK)

# Research Project Management

**Ref.:** 15306\_286540 **Date:** 14 - 20 Apr 2025 **Location:** London (UK) **Fees:** 5200 **Euro**

## Introduction:

This course provides hands-on training on Project Management. Participants will get an introduction to project and program management as well as comprehensive coverage of project planning, control, and scheduling concepts. The course includes practical working models that create and track the entire project through to completion. The course covers MS project software functions which are used to ensure that the project runs as planned, objectives are achieved and the project is completed according to specifications, on time and on budget.

## Target Groups:

- Project Managers
- Project Schedulers
- Project Controllers
- Researchers

## Course Objectives:

The course objectives cover project management basics and the research methodology used in project management.

## Training Methodology:

Training is undertaken through lectures assisted by audio-visual presentations. Trainee participation is ensured through assignments, role-plays. Case studies also will be discussed to help the audience about the training content. Trainees are also encouraged to share experiences from their workplace, and these are discussed in detail by the trainer to encouraging experiential learning.
