Healthcare Financial and Accounting Management Skills

Ref.: 15089_289606 **Date:** 19 - 23 Jan 2025 **Location:** Amman (Jordan) **Fees:** 2900 **Euro**

Introduction:

This training course will help healthcare professionals in the multitude of disciplines and functions in hospitals, clinics, and community health settings to navigate modern healthcare organizations' complexities and positively contribute to their financial and operational success.

Modern healthcare organizations are complex in the many different treatments and therapies provided and varied in their operating models and strategic and financial objectives: from the UK style national healthcare systems financed from taxation to the US-style insurance financed healthcare systems and profit-making enterprises.

In all of these models, the management of cost, efficiency, and economy is crucial, whether to operate within constrained funding budgets or make a profit. To effectively manage and achieve these goals, healthcare professionals in all disciplines need a working knowledge of the financial accounting and management systems in their organization. This leading-edge training seminar will provide you with the essential skills to understand financial reports and engage effectively in managing your healthcare organization.

Targeted Groups:

- Healthcare budgeting team members
- Healthcare planning professionals
- Financial and management accounting team members
- Clinical and surgical budget holders
- Hospital administration managers
- Dental surgeons and dental practice managers

Course Objectives:

At the end of this course the participants will be able to:

- Understand the fundamentals of financial accounting
- Analyze and interpret healthcare financial reports
- Participate effectively in healthcare sector budgeting processes
- Understand the principles of capital investment decision-making
