IOSH Managing Safely Training Conference

Ref.: 8197_291890 **Date:** 25 - 20 May 2025 **Location:** Online **Fees:** 1500 **Euro**

Introduction:

IOSH safety management is not merely the prerogative of the safety specialist but is an integral part of every management discipline. Office managers bear as much responsibility for their team's safety as construction managers, and both are equally bound by law and company policy.

The IOSH Managing Safely Training Conference ensures that delegates understand their safety obligations and equip them with the knowledge to embed safety management within their workplace. While the delegates may not emerge as safety experts, they will gain an appreciation for crucial safety issues.

They will be exposed to methods for securing their workplaces against dangers. This IOSH safety management seminar empowers managers with the skills to review and enhance their departmental safety systems, introduce new controls, or make necessary changes to safeguard their workplace.

What is IOSH?

The Institution of Occupational Safety and Health IOSH is a globally recognized chartered body for health and safety professionals. The IOSH Managing Safely certification is an acclaimed training essential for managers to understand their health and safety responsibilities.

Benefits of IOSH Managing Safely:

By attending this IOSH safety management conference, managers will learn to cultivate a safer work environment, which minimizes the risk of harm and improves productivity. An IOSH Managing Safely certificate signifies that an individual can effectively manage workplace safety.

Targeted Groups:

- HSE personnel.
- Office Managers.
- Managers of the production process.
- Engineers in maintenance.
- Team Leaders.
- Supervisors.

Conference Objectives:

By the end of this IOSH safety management training event, participants will be able to:
