Ref.: 4001_294035 **Date:** 23 - 27 Jun 2025 **Location:** Geneva (Switzerland) **Fees:** 5500 Euro

Introduction

Leadership in project management is a journey of discovery, embarking on a path to discern the pinnacle of one's leadership qualities and progressing toward fostering and cultivating an ideal leadership identity. This endeavor aims to hone skills that significantly bolster the success of projects. The project leadership course fortifies your leadership identity to ensure its sustainability with every action you embark on or decide to delineate in all your project endeavors.

In project management, possessing robust interpersonal abilities is pivotal in efficiently executing tasks. Thus, this project leadership, politics, influence, and negotiation course will amplify your capability to wield personal skills to impact others positively. The project leadership course elucidates skills and methodologies vital to influencing others assertively and elegantly, especially within the framework of a project where direct control is not feasible.

The curriculum delves into various leadership traits, characteristics, behaviors, and styles. It scrutinizes interpersonal styles and skills and their effect on project leadership, motivation, team dynamics, trust, and the empowerment of employees. The seamless integration of these concepts provides a comprehensive view to spawn more opportunities for the success of your project while preserving your integrity.

The final sections of the project leadership, politics, influence, and negotiation course center on procuring what is essential for a project through the art of negotiation. The project leadership Course expounds on how the adept application of influence tactics, personal power, and organizational politics can be effectively harnessed during diverse project negotiating scenarios.

What is a Project Leadership Course?

A project leadership course is an educational program designed to equip professionals with the knowledge, skills, and abilities to lead and manage projects effectively. The project leadership course covers foundational leadership principles, project management best practices, and the art of negotiation to ensure that project leaders can guide their teams to success while navigating the complexities of organizational dynamics and stakeholder relationships.

In this project leadership in action course, participants will engage in comprehensive training, including power, influence, politics, and negotiations, to provide effective leadership in project management. The leadership in action course will address various aspects essential to project leadership training, such as leadership and influence skills, leadership politics, and organizational leadership dynamics.

This executive leadership course will prepare project managers and team leaders to become adept at political leadership in a project context. It will also provide them with the leadership influence training necessary to succeed. This organizational leadership course serves as a transformative experience for those seeking effectiveness and proficiency in leading their projects amidst the intricate mosaic of power dynamics and negotiations.
