Project Management for Development Professionals (PMD Pro)

Ref.: 15399_298572 **Date:** 30 Jun - 04 Jul 2025 **Location:** London (UK) **Fees:** 5200 **Euro**

Introduction:

Project Management for Development Professionals PMD Pro is an intense training program aimed to build the skills necessary for successful project management in the disciplines of software development and web development. It seeks to arm professionals with the information and abilities necessary to successfully manage projects and produce quality results.

The course offers a thorough, professional-level review of project management principles and procedures. It covers the principles of project initiation, planning, and control, as well as the procedures, methods, and strategies needed to complete projects successfully. Additionally, it emphasizes assisting the project management team by outlining important concepts for cooperation and communication as well as practical methods for project planning, costing, reporting, and budgeting.

This is a highly participatory training with real life scenarios designed to help NGO professionals effectively initiate, plan, execute, and close projects.

Targeted Groups:

• Project Managers and team members who are new to project management.
• Project Managers and team members who are new to the development sector.
• Consultants/contract staff operating in the development sector.
• Professionals in the development sector field who plan to be professionally certified in project management.
• Students who are looking forward to pursuing a career in the project management or development sector.

Conference Objectives:

At the end of this conference the participants will be able to:
• Learn best practices for project management and apply them to real-world development projects.
• Learn how to lead project stakeholders to successful outcomes.
• Acquire a solid foundation in project management principles and their application in the development sector.
• Understand the unique challenges and dynamics of project management in development contexts.
• Learn effective techniques for project initiation, planning, execution, monitoring, and closure.
• Develop skills in stakeholder management, risk assessment, and mitigation strategies.
• Gain knowledge of project documentation and reporting requirements in development projects.
• Familiarize yourself with tools and techniques for project scheduling, budgeting, and resource management.
• Prepare for the Project Management for Development Professionals PMD Pro certification exam.

Targeted Competencies:

• Knowledge of project management processes
• Experience with project planning tools
• Familiarity with team collaboration tool
• Ability to create and manage project plans
• Ability to effectively communicate with stakeholders
• Understanding of team dynamics and conflict resolution
• Stakeholder Management
• Risk Assessment and Mitigation
