SAP Basics & Business Process Integration Mastery Course

Ref.: 1_299375 **Date:** 14 - 18 Oct 2024 **Location:** Munich (Germany) **Fees:** 5200 **Euro**

SAP Business Technology Platform

As a vital part of the course, the SAP Business Technology Platform provides a comprehensive overview of the innovative solutions offered by SAP. This includes an immersive introduction to the SAP Business Technology Platform - where business process integration meets technology. Learn the essentials of harnessing the power of SAPs integrated suite to advance business strategies and gain a competitive edge.

Introduction

Integrated SAP software drives innovation without disrupting today's global economy. Including SAP business technology and SAP business process integration fosters innovation without disruption. In a global economy, businesses must efficiently extend processes across a broad network of customers, suppliers, and partners using SAPs business technology platform. Reduced waiting time and waste speed up critical processes throughout the network.

This course elaborates on the capabilities of SAP Business Technology and SAP Business Process Integration. It aims to provide the foundational knowledge to understand how systems like Implementing SAP CRM can substantially improve your business operational efficiency. The course will also delve into how Information Technology can be a catalyst in streamlining business processes.
