# The Complete Course on Purchasing Management Process

**Ref.:** 4019\_300045 **Date:** 27 - 31 May 2024 **Location:** Singapore (Singapore) **Fees:** 5000 Euro

## Introduction

World-class organizations view applying best practices in purchasing as essential skill sets needed by all employees involved in the procurement process. This certified purchasing management course focuses on the common gaps in performance that must be filled for supply management to provide the continuous improvements needed for organizations to meet their strategic objectives.

This certified purchasing management course develops the skills required to be proactive rather than reactive in procurement activities, showcasing purchasing creativity, flexibility, and supply market knowledge. Participants will learn how to measure purchasing contributions to the organization so that this critical function can be elevated to be recognized as a core organizational competency, aligning with best practices in the certified purchasing management course.

At the heart of every successful business lies a robust purchasing management process overseen by trained and certified purchasing managers capable of shaping the efficiency and effectiveness of the procurement function. This comprehensive purchasing manager training course aims to equip professionals with the skills, knowledge, and competencies needed to excel in their roles, thereby contributing significantly to the bottom line of the organizations they represent.

## Targeted Groups

- Purchasing supervisors.
- Purchasing managers.
- Buyers.
- Senior buyers.
- Procurement professionals
- This certified purchasing management course is for personnel who must understand the purchasing function.

## Course Objectives

By the end of this certified purchasing management course, participants will be able to:

- Develop high-performance purchasing organizations.
- Create strategic purchasing plans that align with certified purchasing manager training.
- Improve internal customer service through effective purchasing management processes.
- Eliminate low value-added processes and focus on advanced certificate skills in purchase management.
- Be taught how to develop spending profiles.
- Show analytics to guide procurement strategies.
- Explore many ways of reporting Key Performance Indicators KPI.
- Use past supplier performance data to select better purchasing manager roles and responsibilities.
- Understand the most important competencies for purchasing personnel essential in training for purchasing managers.

## Targeted Competencies

At the end of this certified purchasing management course, the target competencies will be able to improve the following:

- Strategic sourcing.
- Developing spend analysis to focus on improvement initiatives.
- Cost containment strategies.
- Developing sourcing strategies that are part of a certified purchasing manager program.
- Procurement measurements that define performance in purchasing manager training programs.
- Reducing low-value activities within the purchasing management process.
