Effective Budgeting, Operational Cost Control & Advanced Analysis Workshop

Ref.: 15263_303512 **Date:** 08 - 12 Jul 2024 **Location:** Madrid (Spain) **Fees:** 4900 **Euro**

Introduction:

The effective management of budgeting and cost control is crucial for project/process-based organizations. Nowadays, if contemporary organizations want to stay competitive, they are urged to think in terms of process-value added to customers/shareholders. Along this line, budgeting, as well as tracking, controlling & reducing cost represent essential activities to be performed and monitored by organizations as they implement their key processes, activities, and operations. In addressing these issues, this workshop is relevant for those professionals & analysts facing the difficult challenge of improving performance while reducing the costs of those processes for which there are accountable. By combining techniques analysis, problems and examples with real case studies the workshop provides delegates with key cost awareness and budgetary skills, which is essential to managing and controlling processes/projects in times of increasing global competition where the budgets are inextricably linked with both strategy formulation and cost analysis.

Targeted Groups:

- Financial Planning and Control Staff
- Executives with Financial Responsibilities
- Executives who are responsible for the cost and strategic analysis
- Project Managers
- Employees who want to gain new knowledge to improve their career

Workshop Objectives:

At the end of this workshop the participants will be able to:

- Integrate the organization's strategic planning with budgets and processes of cost control
- Understand the importance of project management, appraisal, planning
- Explore traditional versus innovative budgetary techniques
- Get to know activity-based budgeting and costing
- Explore capital budgeting techniques & cash flows
- Identify key financial indicators for the business, and how and when to monitor them
- Discuss the problems and limitations of budgetary control and look for alternative tools
- Understand the importance of balancing financial and non-financial measure in managing projects
- Interpret budgets and performance measurement as communication tools
- Link budgetary processes with quality issues and business process improvement
- Gain project management abilities
- Integrating planning, budgeting and cost control by relying on a financial-based language
- Manage different types of cost and their relevance to decision making
- Understand the problems of overheads and how Activity-Based Analysis may aid decision-making and pricing strategies
- Select the performance measurement system that works
- Look beyond budgeting: balanced scorecard and six-sigma
- Contribute to implement change in the organization.

Targeted Competencies:

- Master techniques for costing & budgetary analysis
- Be able to identify the right processes to redesign in terms of added-value
- Confidently contribute to business process improvement
- Permits testing of the financial impact of strategic direction
