SharePoint Training

Ref.: 15323_304215 **Date:** 27 Apr - 20 May 2025 **Location:** Cairo (Egypt) **Fees:** 3500 **Euro**

Introduction

This five-day course is created to provide you the practical SharePoint knowledge you need to start leveraging the platform's fundamental functionalities inside teams and departments at your company. Although some individuals may pick up on some of the fundamental capabilities by simply diving in and exploring what they can do, these individuals typically overlook a lot of the potential that SharePoint offers. You may be confident that after taking this course, you'll start using it in the most productive manner. All of the ideas and capabilities covered in this course apply to SharePoint Server. Everything discussed in this lecture applies to both the Standard and Enterprise editions of SharePoint, even if none of the capabilities that are exclusive to the Enterprise edition are used.

Targeted Audience

- The target audience for this training is SharePoint site owners.
- Managers of departments, project managers, and trainers
- Professionals at the help desk and end-user support
- IT specialists who are drawn to features and capabilities that are available right out of the box
- CIOs and IT managers who are thinking about introducing SharePoint to their workplace.
- Anyone who will be utilizing SharePoint
- Professionals typically operate in a variety of work contexts, ranging from extremely small businesses with only a few employees to very big businesses with thousands of employees and many sites.

Course Objectives

- Create, organize, find, and share information with others with SharePoint.
- Manage a collaborative team with SharePoint.
- Enterprise content management with SharePoint
- Utilize SharePoint's social computing features.

Course Outline

Unit 1: Introduction to SharePoint

- Describe SharePoint.
- How do I move about in SharePoint's pages, sites, lists, and libraries?
