Microsoft SharePoint Training Course

Ref.: 15323_304220 **Date:** 06 - 10 Jul 2025 **Location:** Sharm El-Sheikh (Egypt) **Fees:** 4500 Euro

Introduction:

This comprehensive five-day Microsoft SharePoint training course is designed to equip participants with essential skills to harness SharePoint's robust platform for team synergies and departmental collaboration within an organization.

Unlike those who delve into SharePoint features on an ad-hoc basis, potentially overlooking much of the platform capabilities, this course ensures that you are versed in the most productive uses of SharePoint, encompassing all relevant concepts and functionalities pertinent to SharePoint Server in both Standard and Enterprise editions.

Targeted Audience:

- SharePoint site owners who are the primary administrative users of SharePoint sites.
- Managers of departments, project managers, and organizational trainers who wish to leverage SharePoint for project coordination and training resources.
- Support professionals such as helpdesk staff and end-user support teams cater to SharePoint-related queries and assist.
- IT specialists are keen on exploring SharePoint's out-of-the-box features and capabilities.
- CIOs and IT managers contemplating the implementation of SharePoint in their operations.
- Any individual or team member who will incorporate SharePoint into their day-to-day work.
- Professionals work in diverse environments, from small businesses to large corporations, including multiple locations.

Course Objectives:

During the Microsoft SharePoint training course, participants will:

- Develop the ability to create, organize, and share information efficiently using SharePoint.
- Learn the nuances of managing collaborative teams effectively through the SharePoint interface.
- Gain insights into enterprise content management utilizing SharePoint's extensive toolset.
- Familiarize oneself with SharePoint's social computing features to enhance workplace interaction.

Targeted Competencies:

In the Microsoft SharePoint training, participants competencies will:

- SharePoint Site Management.
- Document and Content Management.
- Collaboration and Communication Tools.
- Workflow Automation.
- Permissions and Security Management.
- SharePoint Integration with Microsoft 365.
- Customization and Personalization.
