# Budgeting, Forecasting, and Planning Process

**Ref.:** 15389\_306287 **Date:** 28 Jul - 01 Aug 2025 **Location:** Rome (Italy) **Fees:** 4900 **Euro**

## Introduction:

A good plan should start with a good forecast, which can lead to a good budget. The strategy is a long-term plan of what the company will do to achieve its policy. A budget is a short-term plan for how the strategies will be achieved. It is an estimate of the activities that the company has to develop to achieve its short-term plans.

This budgeting, forecasting, and planning process course delves into financial planning, budgeting, and forecasting to highlight their interdependencies and equip participants with the necessary skills to execute each part effectively.

## Understanding Financial Planning, Budgeting, and Forecasting:

Financial planning, budgeting, and forecasting are pivotal components in the steering of any organization toward its financial goals. This course aims to clarify the planning, budgeting, and forecasting process, articulate the nuances between each term, and ensure that participants can leverage various planning, budgeting, and forecasting tools to achieve organizational success.
