# Security Procedures & Risk Assessment

**Ref.:** 15404\_306752 **Date:** 02 - 06 Jun 2024 **Location:** Amman (Jordan) **Fees:** 2900 **Euro**

## Introduction:

One of the characteristics of the occupational safety and health official in the institutions is the ability to absorb and understand the human aspects and behavioral skills to deal with subordinates effectively. We find that success depends to a large extent on the effectiveness of communication with others, as communication is the key to the effectiveness of management, or it is the means that allows the manager to accomplish all his job tasks. In order to plan successfully, must have the ability to deliver the vision properly to the workers, and in order to organize successfully, must encourage the flow of communication from top to bottom and vice versa, along with communications at the same administrative level, and in order to lead successfully, must direct the workers to the required goals, in a leadership style. In order to monitor successfully, must communicate with subordinates to follow up the progress in performance, stressing the achievement of the objectives of occupational safety, and intervene with the necessary correction, and accordingly, the progress of this training program in accordance with the latest relevant global practices and methodologies.
