Introduction

Ports are the economic drivers of a country's economy and ships are the principal mode of delivery. As countries develop and their economies grow, reliance on ships and ports also grows. Emerging and established economies require graduates who have developed a solid knowledge and understanding of operating a port successfully and managing the ships that deliver to the ports.

Studying shipping and port management will help you to capitalize on these opportunities and equip you with the balance of modern shipping knowledge and port management expertise sought after by employers in the industry.
