Munich (Germany)

Procurement and Supply Chain Management Conference

Ref.: 15509_312780 **Date:** 22 - 26 Jul 2024 **Location:** Munich (Germany) **Fees:** 4900 Euro

Introduction:

The development and implementation of carefully crafted strategies for the acquisition of all materials, goods, equipment, and services have become a critical issue in all organizations wishing to reduce operating costs while improving quality and productivity. This program explores key concepts forming the basis of procurement and supply chain management and moves through leading-edge issues that confront organizations today.

Targeted Groups:

- Contracts, Purchasing, and Procurement Personnel.
- Project, Engineering, Operational, and Maintenance, Personnel who are involved in the planning, and execution of purchases and contracts.
- Supply, Buying, Purchase, Logistics, Materials, and Supply Chain Professionals.
- All involved in the acquisition of materials, equipment, and services and who are in organizations whose leadership wants high levels of competency in those involved in these activities.
- Those who need to develop their limited understanding of Logistics and Supply Chain Management.
- Those who are looking for business gains and benefits from managing their supply chains more effectively.

Conference Objectives:

At the end of this conference, the participants will be able to:

- Achieve a thorough understanding of what is the best practice.
- Establish the mission, vision, and knowledge needed to successfully implement the processes and methods needed to reach world-class performance.
- Provide an overview of the key drivers involved when viewing supply chains from a logistics/demand point of view.
- Explain what procurement and supply chain management are fundamental.
- Review the meaning of strategic procurement.
- Give examples of best practices in procurement and the supply chain.
- Review how to obtain the best pricing.
- Understand how to develop spend analysis.
- Develop a functional and cross-functional view of the supply chain.
- See that better working with all of the supply chain players pays.
- Consider Key Performance Indicators KPIs.

Targeted Competencies:

- The ability to deliver real value in a shorter time.
- Reduce the number of non-value-adding activities.
- Improved relations between personnel, customers, and suppliers.
