Certificate in Business Decision Models Course

Ref.: 15516_313000 **Date:** 10 - 14 Nov 2024 **Location:** Manama (Bahrain) **Fees:** 5500 Euro

Introduction:

Managers regularly face decision-making scenarios characterized by certainty, risk, or uncertainty as an integral aspect of their responsibilities. Despite this fundamental aspect of their roles, many managers lack formal training in decision-making. This course fills this gap by equipping participants with indispensable business decision models and techniques, empowering them to enhance the caliber of their decision making within their operational conditions.

Moreover, it furnishes crucial guidance on decision-making models and techniques, facilitating the ability to make well-informed decisions, navigate uncertainty, enhance success rates, and cultivate managerial effectiveness.

Targeted Groups:

- Managers.
- Department heads and business professionals engaged in decision-making.
- Planning, and strategizing for both their departments and the organization as a whole.

Course Objectives:

At the end of this course, the participants will be able to:

- Elucidate the fundamentals of sound decision-making.
- Utilize data for making informed and enhanced decisions.
- Employ techniques centered on risk-based decision-making.
- Cultivate indispensable financial literacy competencies.
- Utilize tools for executing decisions effectively.

Targeted Competencies:

- Decision-making.
