Implementing Effective Preventive and Predictive Maintenance Program

Ref.: 15541_314079 **Date:** 24 - 28 Nov 2024 **Location:** Manama (Bahrain) **Fees:** 5500 Euro

Introduction:

Effective Planned & Predictive Maintenance is critical for a successful company and an integral part of maintenance management strategies such as RCM, RBM TPM, and even 6-Sigma. This comprehensive 5-day program has been designed to benefit both qualified new professionals as well as experienced professionals who may be involved in the rollout of a comprehensive Maintenance system or auditing an existing system. It covers all the steps required in developing a successful Planning & Predictive Maintenance program from system development until a well-managed Maintenance system is in place and operational.

Targeted Groups:

The training is intended for:-

- Maintenance Personnel.
- Maintenance technicians.
- Maintenance engineers.
- Reliability engineers.
- Maintenance supervisors/managers.
