Madrid (Spain)

# International Cash & Treasury Management

**Ref.:** 15742\_324932 **Date:** 19 - 23 May 2025 **Location:** Madrid (Spain) **Fees:** 4900 Euro

## Introduction:

International Cash and Treasury ensures a company's financial stability and operational success in a global marketplace. As organizations expand across borders, they face increased complexity in managing cash flows, liquidity, foreign exchange risks, and regulatory challenges. This International Cash and Treasury Management course covers effective management, optimizing cash resources, maintaining efficient liquidity levels, safeguarding against financial risks, and ensuring regulatory compliance across multiple jurisdictions.

This International Cash and Treasury Management training provides participants with the knowledge and skills to manage international cash strategically, maximize financial performance, align treasury operations with broader business objectives, and understand key concepts related to managing global cash flows and liquidity. Participants will explore the functions of international cash management, including optimizing cross-border transactions, managing foreign exchange risks, and enhancing cash visibility.

The International Cash and Treasury Management course covers the definition of cash management, focusing on strategies and responsibilities required to handle global financial operations. It delves into treasury management, examining treasury management tools and solutions to streamline financial processes and mitigate risks. Attendees will gain insights into cash management duties, strategies, and the advantages of treasury management. Earning a certificate in International Cash and Treasury Management will enable professionals to enhance their skills and drive efficiency in corporate treasury functions.
