# Archive Centre Administration Training Course

**Ref.:** 15775\_326357 **Date:** 27 - 31 Oct 2025 **Location:** Paris (France) **Fees:** 5300 Euro

## Introduction:

The Archive Centre Administration training course equips participants with the knowledge and skills to manage archival collections and information systems. As organizations increasingly recognize the importance of preserving historical records and maintaining accurate documentation, the role of archive administration has become vital. This course provides archival principles, practices, and technologies, enabling participants to understand the records lifecycle from creation to preservation and eventual disposition.

Participants will explore key topics such as record classification, retrieval systems, digital archiving, and legal and regulatory requirements compliance. By engaging in hands-on activities and case studies, learners will develop practical skills for efficiently organizing, preserving, and accessing archival materials. This Archive Centre Administration training is essential for professionals looking to enhance their archive management expertise and contribute to preserving valuable information for future generations.

The Archive Centre Administration course provides instruction on effective management practices within an archive centre. Participants will learn to define archive administration, understand the functions of a centre administrator, and explore best practices for managing a centre administration office. It covers organizing centre archives, establishing an archive business centre, implementing processes within archives administration, maintaining a structured, efficient, and secure centre administrative system, equipping learners with skills to run a successful archive centre, and ensuring compliance with industry standards.

## Targeted Groups:

- Archival professionals are seeking to enhance their administrative skills.
- Records management specialists are looking to improve archiving practices.
- Information management personnel in governmental and corporate sectors.
- Librarians and museum curators are involved in collection management.
- IT professionals focused on digital archiving solutions.
- The administrative staff is responsible for maintaining organizational records.
- Graduate students in library and information science programs.
- Individuals aiming for a career in archives or records management.

## Course Objectives:

At the end of this Archive Centre Administration course, the participants will be able to:

- Understand the fundamental principles of archive administration and management.
- Develop skills in organizing and classifying archival materials effectively.
- Learn best practices for digital archiving and electronic records management.
- Explore legal and regulatory frameworks governing archival practices.
- Gain proficiency in the preservation techniques for various media formats.
- Enhance knowledge of retrieval systems to improve access to information.
- Understand the process of appraisal and disposition of archival records.
- Cultivate project management skills relevant to archival projects.
- Strengthen communication and engagement strategies with stakeholders.
- Prepare participants for professional roles in archive and records management.

## Targeted Competencies:

By the end of this Archive Centre Administration training, the participant's competencies will:

- Knowledge of archival principles and practices.
- Proficiency in records classification and management.
- Skills in digital archiving and information technology.
- Understanding of legal and regulatory compliance in archiving.
- Ability to develop and implement archival policies and procedures.
- Competence in preservation techniques for various formats.
- Skills in efficient retrieval and access systems.
- Ability to conduct appraisal and disposition of records.
- Knowledge of project management in archival contexts.
- Proficiency in stakeholder engagement and communication.
