Managing Debt and Financial Claims with Excel & Communication

Ref.: 15835_334646 **Date:** 28 Dec 2026 - 01 Jan 2027 **Location:** London (UK) **Fees:** 5800 Euro

Introduction:

This Managing Debt and Financial Claims with Excel and Communication course equips professionals with the essential skills to manage debt and financial claims. Participants will learn how to accurately record and update debt balances in Excel, streamlining financial data management. It emphasizes the importance of communication and soft skills, such as customer engagement, problem-solving, and persuasive techniques, to enhance collections and resolve disputes. Combining practical finance tools with strong communication strategies ensures they are prepared to manage financial claims and improve cash flow while maintaining positive customer relationships.

Participants in this Managing Debt and Financial Claims with Excel and Communication course explore the definition and importance of managing debt, equipping them with strategies to manage debt effectively. Understanding what managing debt entails is for financial stability and highlights its role in personal and corporate finances. They will learn the types and meanings of financial claims, gain insight into financial claims management, and learn how to become financial claims experts. Practical applications using Excel communication tools will streamline tracking and reporting, enabling efficient debt and claims management.

Targeted Groups:

- Finance professionals are managing accounts receivable.
- Debt collection specialists and teams.
- Customer service representatives handling financial queries.
- Business owners and managers overseeing financial operations.
- Individuals involved in credit management or financial analysis.
- Employees in billing and invoicing departments.
- Sales teams dealing with financial negotiations and claims.
- Professionals seeking to enhance communication and negotiation skills in finance.

Course Objectives:

At the end of this Managing Debt and Financial Claims with Excel and Communication course, the participants will be able to:

- Learn how to record and update debt balances efficiently in Excel.
- Understand key financial concepts related to debt management and claims.
- Gain proficiency in using Excel functions for accurate debt tracking.
- Develop communication skills to engage effectively with customers.
- Master persuasive techniques for negotiating and resolving financial claims.
- Acquire strategies for finding solutions to payment disputes.
- Enhance skills in managing financial claims professionally and tactfully.
- Improve the ability to analyze financial data and generate reports in Excel.
- Build confidence in handling difficult customer interactions regarding debt.
- Strengthen problem-solving abilities in debt collection and financial negotiations.

Targeted Competencies:

By the end of this Managing Debt and Financial Claims with Excel and Communication training, the participant's competencies will:

- Debt tracking and management using Excel.
- Financial data analysis and reporting.
- Efficient use of Excel formulas and functions for debt updates.
- Effective communication with customers regarding financial matters.
- Persuasive negotiation techniques for debt resolution.
- Problem-solving in financial disputes and claims.
- Professional handling of financial claims and disputes.
- Customer relationship management in debt collection processes.
- Financial documentation and record-keeping best practices.
- Conflict resolution and stress management in financial communications.
