OSHA General Certificate Course

Ref.: 15927_338851 **Date:** 28 Sep - 02 Oct 2026 **Location:** Boston (USA) **Fees:** 7500 **Euro**

Introduction:

The OSHA General Certificate course provides essential training on workplace safety standards outlined by the Occupational Safety and Health Administration OSHA. It is for individuals seeking to enhance their understanding of safety protocols. It covers various topics, such as hazard recognition, risk assessment, and implementing safety measures to ensure a safe working environment.

Participants in this OSHA General Certificate training will gain practical knowledge on preventing accidents, minimizing risks, complying with OSHA regulations, and fostering a workplace safety culture. This certification is invaluable for professionals committed to promoting health and safety in any industry.

The OSHA General Certificate Course provides training on the OSHA General Duty Clause and its application to workplace safety. Participants will gain an in-depth understanding of OSHA general industry standards and their role in fostering a safe work environment. It covers OSHA general industry training requirements and equips attendees with knowledge of the OSHA general industry.

Participants will understand the critical role of the OSHA General Duty Clause in compliance by exploring topics such as "What is the OSHA General Duty Clause?" and how to define it. Additionally, the course emphasizes practical strategies for implementing OSHA general safety measures across various industries.

Targeted Groups:

- Safety Managers and Coordinators.
- Supervisors and Team Leaders.
- Construction Workers and Contractors.
- Manufacturing and Production Workers.
- Environmental Health and Safety EHS Professionals.
- HR Managers and Safety Compliance Officers.
- Employees in High-Risk Industries e.g., oil, gas, construction.
