

Influence & Decision-Making for Leaders

Influence & Decision-Making for Leaders

Introduction

Effective leadership in modern organizations depends on the ability to influence outcomes and make sound, strategic decisions under varying conditions. This Influence & Decision-Making for Leaders course provides leaders with a structured understanding of influence techniques and decision-making frameworks that drive organizational success. Participants will explore how cognitive biases, emotional intelligence, and organizational dynamics shape leadership decisions. The program examines how leaders can build credibility, align stakeholders, and guide teams toward shared objectives. Through a combination of theoretical models and applied scenarios, learners will strengthen their ability to evaluate complex situations and respond with clarity and confidence. Participants will lead decisively while fostering trust, collaboration, and sustainable performance.

Targeted Groups

This Influence & Decision-Making for Leaders training targets professionals seeking knowledge and skills:

- Senior managers are responsible for strategic decisions.
- Team leaders managing cross-functional teams.
- Executives aiming to strengthen leadership influence.
- Project managers handling complex stakeholder environments.
- Business consultants advising on organizational decisions.
- HR professionals supporting leadership development.
- Entrepreneurs leading business growth initiatives.
- Professionals preparing for leadership roles.

Course Objectives

Participants will achieve the following objectives by completing the Influence & Decision-Making for Leaders course:

- Understand core principles of leadership influence and persuasion.
- Identify key decision-making models used in organizations.
- Analyze factors affecting strategic and operational decisions.
- Evaluate risks and uncertainties in decision environments.
- Apply critical thinking to complex leadership challenges.
- Develop structured approaches for effective problem-solving.
- Strengthen communication techniques to influence stakeholders.
- Recognize cognitive biases impacting decision quality.
- Improve confidence in high-stakes decision-making situations.
- Align decisions with organizational goals and performance metrics.
- Enhance leadership presence and credibility in decision processes.
- Integrate ethical considerations into decision-making practices.

Targeted Competencies

Participants will gain the following competencies during the Influence & Decision-Making for Leaders

program:

- Strategic thinking and analytical reasoning.
- Effective leadership influence and persuasion skills.
- Structured decision-making and problem-solving ability.
- Risk assessment and evaluation capabilities.
