

Managing Partnerships and Strategic
Alliances Course

Managing Partnerships and Strategic Alliances Course

Introduction:

This managing partnerships and strategic alliances program will equip you with the knowledge and skills necessary for creating and managing a wide range of strategic alliances and partnerships, covering a spectrum from domestic partnerships to global ventures such as joint ventures, licensing agreements, buyer-supplier partnerships, and consortia.

The managing partnerships and strategic alliances course investigates the circumstances under which partnerships are preferable to alternative growth strategies, illuminating the associated costs and benefits. By the conclusion of this managing partnerships and strategic alliances course, you will have gained practical tools to navigate the complex landscape of alliance management.

What is Partnership Management?

Partnership Management is a critical facet of managing partnerships and strategic alliances. It involves overseeing and coordinating relationships between an organization and its strategic partners. It also includes negotiating, implementing, and continuously improving alliances to achieve mutual business goals. This course on managing partnerships and strategic alliances will provide insights and frameworks for understanding and succeeding in partnership management.
