Comprehensive Cybersecurity Awareness and Phishing Prevention Training

Comprehensive Cybersecurity Awareness and Phishing Prevention Training

Proposed Key Focus Areas:

- Secure Handling of Email Services, Especially Phishing Emails.
- Secure Handling of Mobile Devices and Storage Media.
- Secure Internet Browsing.
- Secure Use of Social Media.
- Phishing Testing.
- Phishing Testing Campaign for All Users.

Training Objectives to be Achieved by the End of the Program:

- Enhance Awareness of Email Security: Equip participants with the knowledge to identify and handle phishing emails and other email-related threats.
- Strengthen Mobile Device and Storage Media Security: Teach best practices for protecting mobile devices and storage media from unauthorized access and malware.
- Promote Secure Internet Browsing: Provide safe and secure web browsing guidelines to protect against cyber threats.
- Encourage Responsible Use of social media: Educate on the risks associated with social media and how to use these platforms securely.
- Implement Effective Phishing Testing: Train participants through practical testing and simulation exercises to recognize phishing attempts.
- Conduct a Comprehensive Phishing Testing Campaign: Develop and execute a phishing testing campaign to evaluate and improve the organization's security posture.
