Marketing Communication and Media Planning

Introduction:

Advertising, marketing, and communication are essential tools that provide consumers with information about products, services, and ideas. This course offers training in modern marketing and communications's theoretical and practical aspects. Participants will explore a variety of digital and traditional marketing tools and gain a comprehensive understanding of advertising and communication functions by using various media techniques aimed at campaign success.

Target Audience:

- Professionals in marketing, communications, advertising, public relations, human resources, and sales.
- Business development professionals who require up-to-date knowledge of marketing strategies and techniques.
- Employees of large corporations, government agencies, and small businesses.
- Anyone who needs this course and wishes to develop their skills and expertise.

Training Objectives:

At the end of this course, participants will be able to:

- Describe the field of marketing communications and explain the characteristics of successful campaigns online or offline.
- Apply sound knowledge of "event concepts" and strategies to enhance brand visibility or company image.
- Identify the principles of Integrated Marketing Communications IMC and how these principles are applied in companies to ensure messages reach consumers and businesses.
- Apply the ideas and skills necessary to manage marketing communication challenges and find successful solutions.
- Recognize and apply social media tactics to increase a marketing campaign's return on investment ROI.

Targeted Competencies:

- Marketing planning.
- Marketing audit processes.
- Macro and micro environmental analysis.
- Marketing communications.
- Marketing research.
