

The Oxford Advanced Finance Leaders
Program

The Oxford Advanced Finance Leaders Program

Introduction

This prestigious Oxford high-performance leadership Programme is designed to equip leaders with the crucial skills to navigate the complex world of high-stakes finance and leadership.

Part of a series of distinguished programs, such as the Oxford Leadership Programme and the Oxford High-performance Leadership Programme, this course aims to be a bastion for advanced finance leaders by intertwining financial acumen with executive leadership skills.

This advanced finance leaders seminar combines some of the most critical management, leadership, and financial management areas: mastering people management and team leadership skills and financial analysis, planning, and control.

The Oxford leadership course is integral to the finance leadership development program for current and future finance leaders.

Targeted Groups

- Managers, supervisors, and team leaders.
- Project management professionals.
- Human resources and other non-financial areas.
- Accountants.
- Financial analysts.
- Auditors.
- Financial personnel and senior finance professionals.
- Professionals who want to understand the financial aspects of their roles better.

Course Objectives

At the end of this Oxford leadership course, the participants will be able to:

- Understand their role as managers and leaders.
- Establish clear objectives and standards of performance for the team.
- Manage their workload using effective prioritization, delegation, and information management techniques.
- Maximize their influencing skills.
- Develop and leverage the capabilities of team members.
- Expose to various leadership and management practice approaches, allowing them to select those most suitable for their situation and personal style.
- Experimenting with critical techniques before applying them in the workplace will help build the confidence to move beyond traditional assumptions about the 'right' way to manage.
- Broaden their financial knowledge to enable them to develop and manage the financial aspects of their role more effectively and improve performance.
- Acquire the ability, when involved in decisions about investment, operations, or financing, to choose the most appropriate tools from the wide variety of financial techniques available to provide a quantitative analysis.
- Understand the financial tools and techniques that support an organization's planning and control concerning their departments, business units, and businesses.

Targeted Competencies

- Leadership skills.
- Building and managing teams.
- Communication skills.
- Time management
- Problem-solving.
- Decision making.
- Financial analysis, planning, and control.
- Financial decision-making.
- Investment analysis.
- Business performance management.
