

Managing Service Quality and Customer Satisfaction

Managing Service Quality and Customer Satisfaction

Introduction:

In this increasingly competitive world, customers are positioned to demand ever-increasing levels of service and quality. Rather than react to their demands, successful companies are proactive in managing quality and continuously seek to improve levels of customer satisfaction. Managing service quality and enhancing customer satisfaction is at the forefront of any thriving business strategy.

Implementing a Robust Customer Satisfaction Improvement Plan:

An action plan to improve customer satisfaction is crucial in the contemporary market. This managing service quality and customer satisfaction course provides the necessary foundation and tools, such as customer satisfaction techniques and training, that equip professionals to create and execute strategies for enhancing overall customer happiness, ensuring a consistent approach to service quality improvement.

Targeted Groups:

- This managing service quality and customer satisfaction course is for all business professionals in customer service positions or specific responsibilities for service quality and customer satisfaction.
- Personnel and officers seek to examine and enhance their service quality and customer satisfaction skills, leveraging customer satisfaction tools and techniques to serve their clientele better.

Course Objectives:

At the end of this managing service quality and customer satisfaction course, the participants will be able to:

- Describe how to use Quality Management tools and methods to improve customer satisfaction.
- Build strong customer relationships by applying service quality management processes.
- Help influence and set customer expectations to enhance the quality management services delivered.
- Measure their degree of customer focus and be able to apply a variety of methods to get closer to the customer.
- Implement improved people skills to enhance customer service quality management, leading to higher satisfaction levels.
- Learn how to improve customer satisfaction and create an action plan.
- Improve service to internal and external customers through customer satisfaction training courses.
- Learn how to manage and control expectations within a service quality management framework.
- Use skills to build effective relationships that are key to improving customer satisfaction.
