

Strategic Sales Planning and Territory Management Course

Strategic Sales Planning and Territory Management Course

Introduction

The strategic sales and territory management course is well-designed, and managed sales territories allow firms to maximize sales force capacity, provide a foundation for other sales performance management activities including incentive compensation and quota design, and have many other benefits to sales forces.

This strategic sales and territory management course reviews territory management principles while focusing on the essential analytical frameworks and practices of sound territory design.

Sales Territory Management Best Practices and Tools

In recognition of the vital role that territory management plays in the success of a sales force, this course also dedicates a unit on sales territory management best practices and the tools integral to the process. Participants in the strategic sales and territory management course will explore advanced concepts in territory planning sales, effective sales territory management, and the dynamics of a successful territory sales plan.

With guidance on using leading territory management tools and focusing on strategically managing a sales territory, sales professionals will enhance their ability to design and execute a sales territory management strategy that aligns with their company's objectives and adapts to the market's evolving requirements.
