Measuring & Maximizing Training ROI Conference

Introduction

Measuring and maximizing training ROI can have a strategic impact on an organization. Yet, many organizations need to learn or understand if they are receiving value for their investment in ROI training. This measuring and maximizing training ROI is designed to demonstrate that training has a strategic role and how organizations can obtain more excellent value from their investment in training, ensuring that they measure the ROI of training effectively.

As a participant, you will be immersed in the ROI workshop, where you will learn practical, hands-on techniques for ROI performance measurement. This in-depth exploration aims to prepare attendees for obtaining ROI certification, reflecting a comprehensive understanding of the best practices and principles discussed throughout the ROI conference.

Targeted Groups

- Training Managers.
- Training Coordinators.
- Training Administrators.
- Training Staff.
- HR Managers.
- HR Staff.

Understanding ROI in Training: A Key Conference Objective

A fundamental goal of this conference is to impart a robust understanding of what ROI in training entails. By the ROI conference conclusion, participants will be equipped to address questions like how you measure ROI on training. And comprehend the meaning of ROI training within their organizations. The intricacies of ROI measurement tools, techniques, and strategic applications will be explored thoroughly to enable informed decision-making and investment justification in employee development initiatives.

Conference Objectives

At the end of this measuring and maximizing training ROI conference, the participants will be able to:

- Understand the issues related to measuring and maximizing training return on investment at both a strategic and operating level.
- Planned, organized, and delivered training programs and events relevant to and will contribute to attaining the organization's strategic objectives.
- Demonstrate and be able to make the business case for specific training programs and events and, therefore, be able to justify training-related expenditure.
- Understand and be able to implement the techniques applicable to identifying and delivering relevant training needs.
- Describe best practices concerning employee development and contribute to achieving a competitive edge by improving employee retention rates.
- Monitor and review the effectiveness and impact of the training 'spend' and, as a result, be able to apply measures to training-related processes.

Targeted Competencies

At the end of this measuring and maximizing training ROI conference, the target competencies will be able to:

- Learn how to set training investment at the strategic level and establish its contribution to achieving strategic organizational objectives.
- Ensure that proposed training programs are relevant and that the business case is made for the planned expenditure.
- Learn techniques to monitor the impact of training in the workplace.
- Learning techniques to identify future training needs at the strategic, operating, and individual levels.
- Establish that the maximum return on the training investment has been achieved.
