Positive Skills Workshop

Developing Personal Effectiveness with Positive Skills Workshop

Introduction:

One major key to success in the business world is applying discipline to your life and actions. This personal effectiveness and productivity skills workshop is the key to developing personal effectiveness and professional excellence.

As S. N. Bremer said, Self-mastery is the greatest task to which man has ever set his hand. Self-development can be achieved after we control ourselves by operating and controlling our thoughts.

Aldous Huxley commented that there is only one corner of the universe you can be certain of improving: yourself! This personal effectiveness and productivity skills workshop highlights the importance of personal effectiveness in professional development.

Whether you realize it or not, you carry within yourself a mental blueprint and a picture of yourself. All of our actions, feelings, behavior, and even abilities are consistent with our self-image. Your self-image is either your life handicap or your auto-pilot for success.

Denis Waitley, the well-known motivational speaker and performance trainer, sums it all up when he says, " Ultimately, what shapes our self-image is not so much what happens to us as what happens in us! Perhaps more than any other quality, healthy self-esteem is the door to high achievement and happiness.

This personal effectiveness and productivity skills program is designed to prepare and equip each person with the discipline, positive mindset, and motivation to maximize their incredible personal potential. This is an essential aspect of personal effectiveness in personal development.
