

Oil & Gas Accounting & Performance  
Measurement Management Conference

# Oil & Gas Accounting & Performance Measurement Management Conference

## Introduction:

This oil and gas accounting and performance measurement management program develops an essential understanding of Oil and gas Exploration and production E&P accounting, reporting, and performance measurement issues and practices. It also develops your ability to prepare, use, and critically evaluate information on E&P activities, applying specialist industry knowledge and relevant analytical skills.

The oil and gas accounting and performance measurement management program is designed specifically for those with a basic understanding of accounting but who need to understand more about accounting and financial reporting policies and practices in the upstream oil and gas industry.

This oil and gas accounting and performance measurement management conference covered topics such as successful efforts and full cost accounting methods, the classification of assets as tangible or intangible, the unit of production method for depreciating capitalized costs, testing for impairment of oil and gas assets, and accounting for removal and restoration of oil and gas facilities.

## Targeted Groups:

- Corporate Accountants, Financial Controllers, Treasury Officers, Management Accountants.
- Finance Staff in General Accounting, Payables, Receivables, Inventory, Fixed Assets.
- Joint Venture Accountants and Auditors.
- External, Financial, and Internal Auditors.
- Government Regulators and Auditors.
- Financial and Investment Analysts.

## Conference Objectives:

At the end of this oil and gas accounting and performance measurement management conference, the participants will be able to:

- Develop an understanding of companies' accounting standards, policies, and practices in the Oil & Gas Exploration & Production industry.
- Appreciate the nature and financial implications of Production Sharing Contracts and other agreements between host governments and international companies.
- Examine issues and guidelines in accounting for Joint Ventures.
- Identify and know how to apply international and national accounting standards most relevant to the E&P industry.
- Improve the relevance and reliability of financial reports to meet users' needs better.
- Review and use publicly available information to benchmark the business performance of companies in the E&P industry.

## Targeted Competencies:

At the end of this oil and gas accounting and performance measurement management conference, the participants will:

- The Current and Future Challenges Within the Sector.
- The Advanced Strategic Decisions Facing Companies Given the Challenging Environment and the Techniques to Make Strategic Decisions.
- Finance strategies - the optimum capital structure & capital investment appraisal techniques to maximize shareholder wealth.
- Strategies to Reduce and Eliminate Financial Risk.
