

Effective Performance Management
Conference

Effective Performance Management Conference

Introduction:

A properly designed and effective performance management process will require various techniques, including agreeing on objectives, reviewing and monitoring performance, giving feedback, coaching, training, development, reward, and appraisal in this effective performance management seminar.

This effective performance management conference will demonstrate how these techniques relate to the roles of HR and line managers and contribute to successful performance management within the organization.

Enhancing Effective Performance Management Skills:

Training and performance management are crucial for any organization's success. This conference aims to equip participants with the knowledge and tools to conduct successful performance management, designate them as certified performance management professionals, and outline the role of performance appraisal training for managers.

Through a series of performance management training activities and discussions, participants will gain insights into how effective performance management can lead to a strong, positive impact on overall organizational success.

Targeted Groups:

- All planning personnel are involved in human resources management.
- All Managers and Leaders Involved in Human Resources Management.
- Process and Quality Improvement Personnel.
- Personnel with Real Leadership Potential.
- Project Management Office PMO Managers.
- All HR Personnel with an Interest in Employees Performance and Appraisals.

Conference Objectives:

At the end of this effective performance management conference, the participants will be able to:

- Understand performance management in a multicultural environment.
- Describe the purposes of performance management from both organizational perspectives.
- Describe the purposes of performance management from an individual's point of view.
- Demonstrate the skills involved in each of the four steps of performance management.
- Describe best practices in assisting with employee work performance problems.
- Link performance management to corporate strategy.
- Design and introduce an effective performance management scheme.
- Recognize the skills managers, supervisors, and team leaders need to manage performance training effectively.
- Manage and improve poor performance, incorporating performance management training for supervisors and employees.

Targeted Competencies:

At the end of this effective performance management conference, the target competencies will be able to:
